

Global Forum for

National SDG Advisory Bodies

Who we are:

The Global Forum is a network of organisations working towards the achievement of the UN Sustainable Development Goals (SDGs). Members of the Global Forum have an advisory function to their governments. The network also has strategic partners that support the Forum and its members.

What we do:

The Global Forum's vision is for all stakeholders in society to be strongly engaged in delivering the 2030 Agenda and its 17 SDGs. We contribute to this by providing advice to our national governments through multi-stakeholder partnerships. These find common ground among partners from many parts of society in how SDGs should be delivered.
